

Welcome to the TRA

TRA Trout Hatchery

Brown Trout Eggs Arriving Soon!

The TRAA trout hatchery is a popular activity of the TRAA as it's a great teaching tool with regard to the life cycle of a trout. Those involved with the hatchery get to see first-hand the development stages of the egg and the fry before their final release destinations to area streams. Volunteers attend to the operation every day to maintain the health and well-being of the trout.

Rod Building - Your First Time

This will be a series of informal, hands-on sessions that will result in a spinning or fly rod that you have assembled and finished yourself. This opportunity is open only to current members of the TRAA, WOFGPA and/or FCFFC.

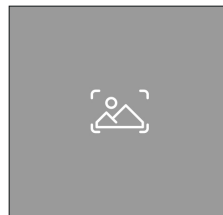

Stream Habitat Work Party

A few TRAA members cleared a number of fallen trees and other blockages on October 13th.

Dan Shinkelshoek made a video of the proceedings and it's worth a look so click on the picture to view.

TRA Gear is now available!

Many of you have already ordered the TRAA tee shirts, but if you haven't you had better hurry because many sizes are almost sold out! These are a steal at \$15 each. Get your TRAA Gear (makes a great Christmas gift!) at any TRAA event, such as this coming General Meeting.
